WORKING FOR EPHRAIM IN OPPOSITION TO MANTI

MT. PLEASANT, Oct. 20.—Prominent citizens of Ephraim have been here during the week in the Interest of the removaof the county seat. They had the band out yesterday, and their efforts cul-minated in a mass meeting at the operanouse last night.

Prof. C. J. Jensen of Ephraim was the principal speaker, and he set forth Ephraim's claims for its removal. Special stress was made of the central location, as to population of the county. More than two-thirds of the people live north of Manti, and with the handsome building, ground and bonus which Ephraim offers, the money now being on deposit with the Mr. Pleasant bank, an excellent impression was made.

C. N. Lund of Mt. Pleasant spoke in favor of the removal to Ephraim. About the only reuson, he said, that some people have for allowing it to remain at Manti was that Brigham Young had said that Manti was the proper place for it. He doubted this assertion and did not believe that it was any reason at all why Manti should keep it. orincipal speaker, and he set forth Eph-

General Freight and Passenger Agent of Local System Returns From Interesting Trip in East.

E. W. Gillett, the gental general freight and passenger agent of the Salt Lake Boute, arrived in the city yesterday from the East. He has been attending the Sait Lake Valley ledge No. 12 met last Thursday night and held a splendid meet-ing. There was a large attendance and a great deal of entiusiasm among the mem-bers. Several candidates were initiated into the order and more applications were considered. meeting of the national association of those officials at Old Point Comfort, Va. After that meeting be went to St. Louis, where the Transcontinental Passenger association was in session. The Sait Lake Route is now a member of this association, and as the new road, early in the next year, will be doing a large share of through travel to the Pacific, it was necessary for its passenger officials to meet other members of the association and thoroughly enter into a discussion of the new route and what its effect will be. While the rate situation from the Atlantic to the Pacific will not in any way be disturbed, there are many questions to be decided upon.

While in the East Mr. Gillett visited passenger officials of all the leading systems and arranged for ticket representation in the coupon ticket offices in all the principal cities. The form of ticket has been decided upon, and now the work of getting them ready for the printers will be finished.

Mr. Gillett will be here several days and After that meeting be went to St. Louis, considered.

The joint entertainment given by the two lodges of this city in honor of the thirty-sixth anniversary of the order was a great success, and demonstrated that a most friendly feeling to the order exists in this community.

REASON FOR U. P. INCREASE.

I. O. C. F.

Last week was a busy week for our city lodges. Jordan lodge No. 3 and Mystic No. 2 conferred the third degree Menday evening upon three candidates, two being from No. 32. Murray: after which a sumptuous repast was spread in the dining-room in honor of a visit from Marray lodge No. 23. Some very fine remarks were made by those present.

Fidelity lodge No. 13 conferred the institutory degree upon one candidate, which insures them work at overy meeting for some time. Lost Mileage, but It Was All Non-Productive.

insures them work at every meeting for some time.

The Thursday night meeting of Utah No. 1 will long be remembered. The hall was filled to overflowing. The occasion was a visit from the grand representatives and sister lodges. Bros. W. O. Carbis and J. Thomas gave interesting accounts of the session of the sovereign grand lodge, held in San Francisco.

There were a few good speednes from visiting members.

Sait Lake lodge No. 2 had a very interesting meeting Friday evening, with many visiting members.

The grand master contemplates making visits to several near-by lodges the coming week. Ho is a hustier in Odd Fellowship and the order will show a substantial increase at the next session of the grand lodge. Eastern papers, commenting on the results of the Union Pacific, as shown by the annual report, cannot very well acthe annual report, cannot very well account for the fact that while the mileage of the system was decreased by the sale to the Sait Lake Route of 512 miles which was included in the preceding years report, the gross earnings showed the immense increase of over \$4,00,000. The facts are apparent to those who live out here. In the first place, the Leamington out-off is included in the mileage sold, and this is a road which is only partly operated for revenue, even at present. Then

the line from Provo to Callente was not a productive one and is only valuable when considered us a part of the great through line to California. When the Eastern writers and those who are interested are informed that for years past the only train over a greater part of the mileage was one mixed daily, except Sunday, they will not regard the matter in the strange light which they evidently do now. For many years the aim of the company has been to inverse a defect on the lines south of Salt Lake, so it is no wonder that the whole report should show an increase when those lines have been eliminated. However, these same lines, under the process of reconstruction by the Salt Lake Route, are becoming splendid ones for local traffic, which is now being developed, and as a part of the through line will, in a year, become as busy a system as can be found in the West.

HYDE IS WITH GOULD.

Election to Board of Western Maryland Settles It.

It will be remembered that when the It will be remembered that when the personnel of the Union Pacific directorate was recently given, the name of James H. Hyde was said to be one in doubt; that it was impossible to say, when writing locally, just where he stood. The amouncement of his election to the board of Gould's Western Maryland will settle this question. The Western Maryland is the Atlantic line of the Gould system. The Gould directors on the Union Pacific therefore, are strong, and if Rockfefler tottes with Gould it is 8 for him and 7 for Harriman. Winslow S. Pierce, F. S. Landstreet and Lawrence Greer, who are well remembered in this city, also appear on the Maryland board Mr. Hyde's name also appears in the new board of the Colorado Fuel & Iron company.

Railroad Notes

The Clark special was due to reach Cali-nie from the south at 9 o'clock last even-ng and would at once leave for this city, it will arrive here early this morning Local railroaders have in view the or-canization of a Salt Lake Traffic club. The red and black dashers of the Salt ake Route are appearing on every trunk nto or out of the local union station. Lincoln county, speaking in accordance with relative area and population, will be one of the greatest beneficiaries by the building of the Salt Lake Route.
